## EASY & FREE TIPS FOR MEASURING YOUR RING SIZE.

USE THESE CHARTS TO FIND YOUR RING SIZE. THERE ARE TWO WAYS:

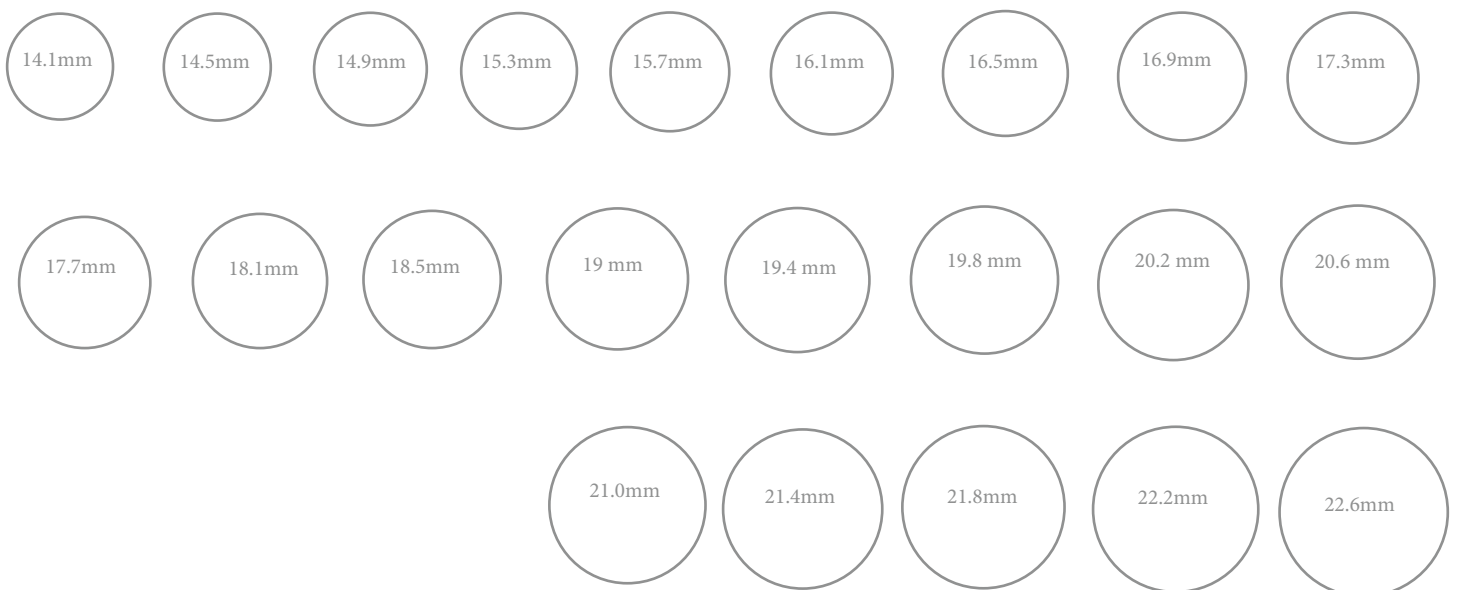

1. You can use this chart to find your finger size *without* having a ring.
2. See what your current ring size is using an *existing* ring.

How to find your finger size without having a ring:

1. Use paper or string to be the measurement tool.
2. Wrap the material around your intended finger. Mark the size and remove.
3. Place that material on the circles below. Or measure on a ruler in mm. The goal is to match the inside diameter (inside of the ring) to the closest circle.
4. Then use the table chart on the next page to see what the size is in Australia or your own home country.
5. If your ring falls between to circles choose the smallest because it is easy to size up half a size and to ensure it doesn't fall off. For more advice talk to your local jeweller.

How to find your finger size with an existing ring:

1. Select a ring that fits your intended finger.
2. Place that ring on the circles below. The goal is to match the inside diameter (inside of the ring) to the closest circle.
3. Then use the table chart on the next page to see what the size is in Australia or your own home country.
4. If your ring falls between to circles choose the smallest because it is easy to size up half a size and to ensure it doesn't fall off. For more advice talk to your local jeweller.
